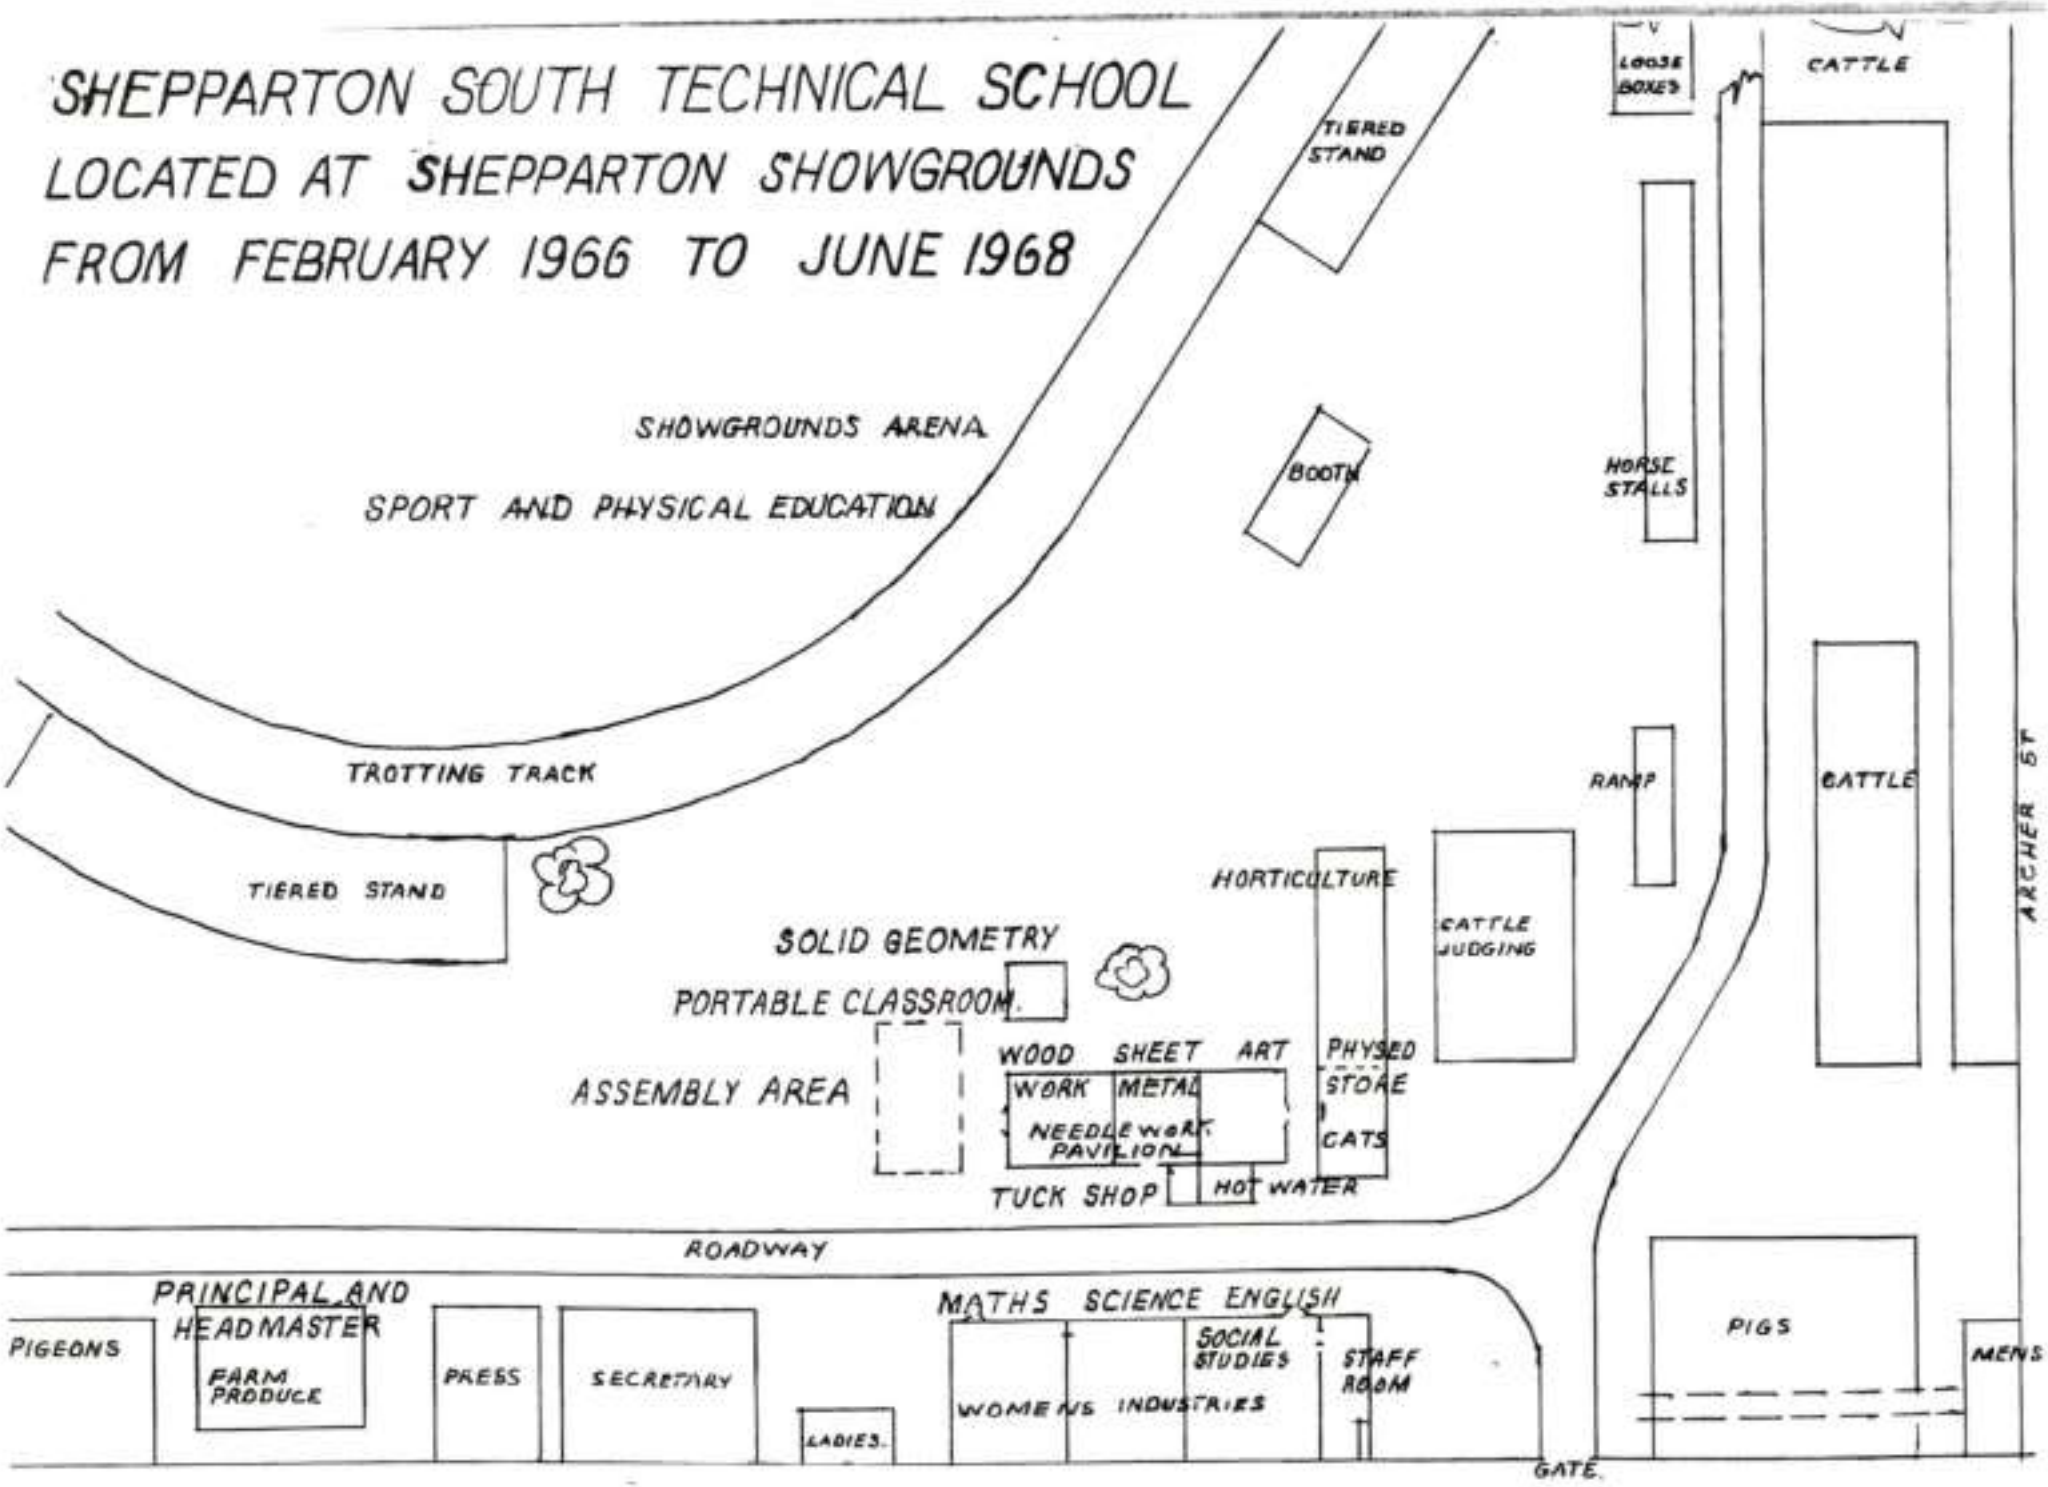
SHEPPARTON SOUTH TECHNICAL SCHOOL LOCATED AT SHEPPARTON SHOWGROUNDS FROM FEBRUARY 1966 TO JUNE 1968



STAFF 1966

Staff at Shepparton South Technical School in 1966 consisted of eleven including clerical and ancillary:

Principal
Mr Jack Hennessy

Headmaster
Mr Keith Morrison

Sheetmetal
Mr Keith Newham

Woodwork, Sportsmaster
Mr Ray McDonald

Art
Mr Ray Purdie

English, Social Studies, Library
Miss Frederica Bottler

English
Mrs Nonie Opie

Maths/Science
Mrs Heather Yarker

Physical Education
Mr John Griffin

Clerical
Miss Maureen O'Brien

Cleaning
Mr D. Donald

Football 1968

— MOTHER'S CLUB —

Mrs. B. Arvet (President), Mrs. J. Crawford (Secretary)
Mrs. J. Arthur (Treasurer)

The tribe,hot and thirsty, was out in the desert. The sun beat down on them for twenty-four hours a day.They had not had a drink of water for days,old men were dying quickly.Only five bushes shaded thirty men.Only the wise witch-doctor knew where the water was.The tribe wouldn't listen to him at first so that later he wouldn't tell them where it was.He wasn't as thirsty as the other twenty-nine. Men saw mirages in the distance. They would run for miles to reach them and then drop dead from exhaustion.Everyone was irritable and sick.The tribe was decreasing quickly,two men remained after two whole weeks. Both were so sick of the heat that one man threw his boomerang at the blistering sun. To their amazement it turned black.First they thought they were going blind from the merciless sun.One man saw an object move in the darkness.He threw his spear right through the heart of his companion. Out of the shadow of the darkness a strange sun-shaped object appeared in the sky.It whirled,spun and twisted about.It seemed as though a spirit had appeared out of the sky which said,"Run in the direction of the wind to find your old camp." He ran and as he disappeared into the distance he changed into an emu.That night he ran and the emu still runs rather than flies

Ken.Mackay

The flies outback are as big as dogs.You never saw such a sight as when fifty of these creatures fly in a pack - it's just like a thunder cloud.Two flies alone, can carry a sheep through the air.

Neil Kemp

He was so tall that he had to bend down to pick up the earth.

Murray Butcher

It was so hot that even the fan could not blow cool air.

John Mason

Tall! I'll say he was tall ; his favourite tie was a cloud.

Ralph Anderson

SCOREBOARD

RESULTS OF HOUSE COMPETITIONS

K. Gordon Swimming Cup. Won by Seal House.
Hartley's Athletic Shield. Won by Heron House.
Mr. and Mrs. Barber Tennis Cup. Won by Crane House.
Shepparton Butter Factory Softball Shield. Won by Crane House.
Lemnos Football Club Football Shield. Won by Heron House.
J. Pottenger Volleyball Shield. Won by Seal House.
R. Kerr Cross Country Shield. Won by Crane House.
United Insurance Cricket Shield. Won by Crane House.

Grand Aggregate Shield presented by Shepparton City Council.

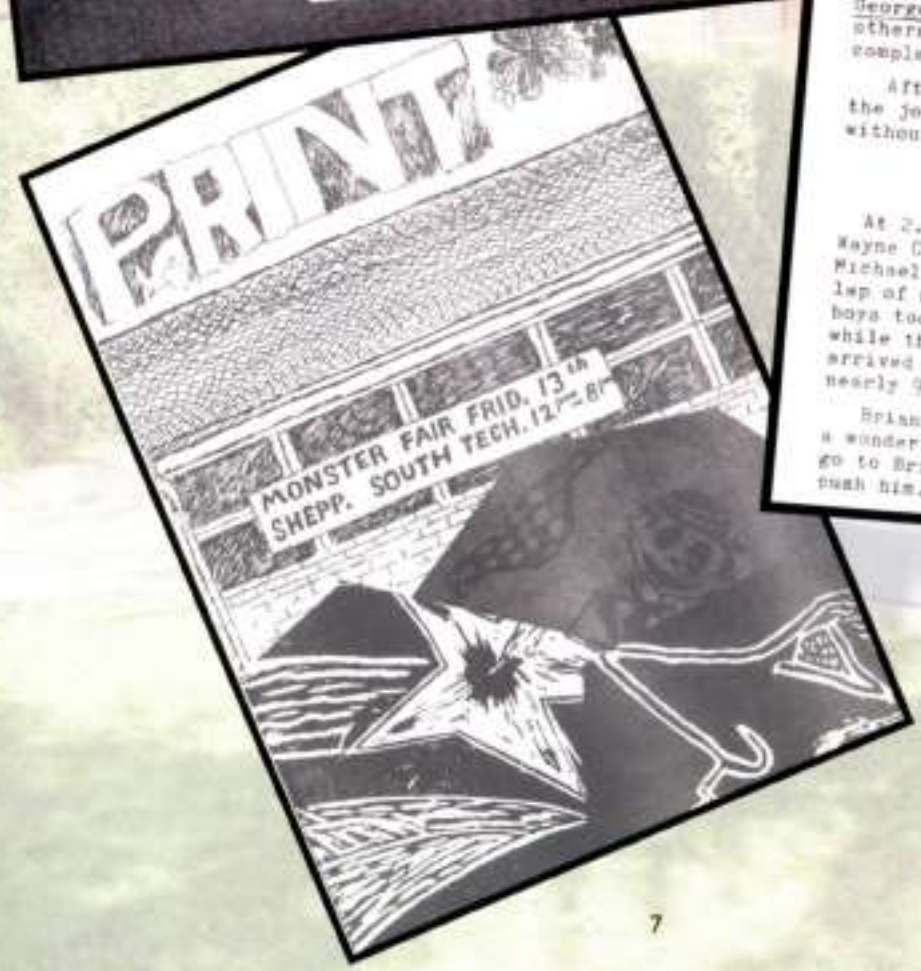
Trafferth Trophy for Sportsman of the Year.

Pat Mahoney. Heron House.



WALKATHON IN A WHEELCHAIR

Bruce Moore standing with Brian Cacciamiga.

Brian Cacciamiga 3E, with plenty of help from his friends, not only took part in the Walkathon, but completed a total of 15 miles.

Brian arrived at Central Park at 12.35 having been pushed by George Corish 2A, David Doyle 2B, and others. The last quarter mile was completed with a broken wheel.

After lunch, with the wheel fixed, the journey was made back to school without mishap, arriving at 2.30

Average Almost 9 m.p.h.

At 2.45 Brian and his 'pushers', Wayne Collyer, David Doyle and Michael Mardella, set off on the extra lap of nearly five miles. These three boys took turns - one pushing Brian, while the others rode a tandem. They arrived back at 3.30, at an average of nearly 9 m.p.h.

Brian raised $24.80 for the school - a wonderful effort. Congratulations go to Brian and to all those who helped push him.

TENDER STH. TECHNICA

NEW SCHOOL TO BE READY BY FEBRUARY

First stage to cost

The Public Works Department has
of J. H. and I. G. Southwell of Wan
tion of the
School in Wi

Tender price is $
months' time.

School principal Mr J. J. Hennessy said today that with the addition of a home economics wing and some related amenities for girls, enrolment at the school by 1970 was likely to exceed 700. He said second stage work on the new school might cost another $100,000.

The actual building will have a frontage to Wilmot Rd. of some 480 feet with a depth of 540 feet. The site extends east from the existing Wilmot Rd primary school on a frontage of nearly 800 feet. Provision for recreational areas has yet to be designated.

Construction will be in cream brick veneer similar to that of the primary school and it will be the first technical school in the State with a fully tiled roof.

The present contract provides for an administrative wing and seven social studies classrooms including a library.

the area and indicated
that there had been
talk on the need for a
third technical school
at Shepparton.

Mr Kepert said that ultimately the Shepparton Technical School would become a diploma school, not necessarily for engineering diplomas, but more particularly to suit the needs of the area in such matters as food processing.

"Technical education depends on the needs of the community. I can say too that nowhere is the community spirit greater in country areas than in this district."

Mr Kepert said the South Shepparton school had "never looked like slipping since it first started." Enrolments had been amazing and the Director said he would not like to look for a better technical centre in Victoria than in

NEW TECH MAY
START SOON

Staff, students and supporters of Shepp
ton South Technical School — at pres
housed in temporary quarters at the Sh
grounds — have high hopes that work
their school building may begin earlier t
expected.

The calling of tenders by the Public Works Department for the supply, grading and consolidation of filling on the Wilmot Rd. site for the new building gave rise to the optimism.

Tenders for the work close with the Department at 10 am on Tuesday, April 4.

This preliminary work will elevate the site, levelling it and providing for drainage.

It is estimated that approximately 10,000 cubic yards will be used and when consolidated and graded the site will be ready for the erection of the new building.

It is probable that the plans of the new school are in an advanced state of preparation, if not, indeed, completed, but there is so far no indication to the Principal of the Shepparton South Technical School (Mr J. F. Hennessy) when a new building be commenced.

At the end of 1968 the new buildings in Wilmot Road were completed which comprised of A wing that housed the administrative offices, a library and the english and social studies department.

While the Mathematics, science, art and graphics departments were situated in B wing.

D wing, which operated woodwork, sheetmetal and fitting and turning classes was already operational before the completion of A and B wings.

During 1968 the position of Principal became vacant due to the Education Department abolishing the Principal Class C position. Jack Hennessey reapplied for this position but it was granted to Jock Thomlinson who was slightly more senior in the newly combined Principal B Class. So in 1969 Jock Thomlinson took over as Principal with 40 staff members employed.

FRIDAY, JUNE 21, 1968

STH. TECH READY FOR 430 PUPILS

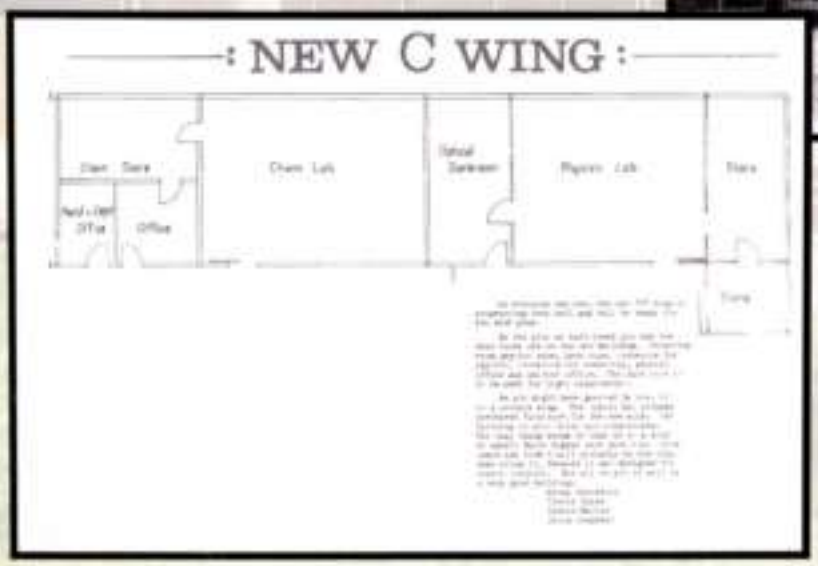
Four hundred and thirty technical school students in Shepparton will march into a brand new school during the first week in July. They are pupils of Shepparton South Technical School who for the past 2½ years have been in temporary accommodation at Shepparton Showgrounds.

During the 1970s and 1980s the school embarked on an extensive building program. The infamous 'Terrapin' was constructed in 1971 and accommodated a series of departments and programs that included graphics, off-set printing and instrumental and classroom music.

In 1971, Shepparton South Technical School became co-educational with the enrolment of 86 girls. The following year, E wing was built to accommodate these girls. This building was comprised of a kitchen and dining room, home management unit with practice flats, laundry, staff changing facilities, two commerce rooms, two needlework rooms, music department with two classrooms and several practice rooms and female toilet block.

C wing, which houses the science rooms, was built in 1973 and the automotive workshop and theory room was then added in 1981.

The following year the school converted two rooms and incorporated a section of A wing into a library.



In my final message as Principal of the Shepparton South Technical School perhaps I may be forgiven if I reminisce a little.
How well I remember the first Wednesday in February 1966. It only seems like yesterday when six members of staff and one hundred and twenty five bewildered students assembled at the Showgrounds. Shepparton South Technical School had come into being.
The highlight of our first year was undoubtedly our trip to Harrietville in October. Practically the whole school went on what was to be a most memorable excursion. I like to think that this is when we, as teachers, discovered that students aren't always little monsters and that perhaps the boys made the equally amazing discovery that their teachers might, after all, be human.
Our second year saw the blossoming of the spirit of Shepparton South Technical School. This was epitomised by the victories of our sporting teams and the success of our students at the Shepparton Show. There was no longer any need to apologise for being in temporary quarters at the Showgrounds.
This year, after two and a half interesting, in fact unique years, we occupied our magnificent new buildings. This was an event of some moment. For those of us who have been associated with the school since its inception the move to our permanent school marked the realization of a dream. I am very proud to have played a small part in this drama of creation.
It is very difficult for me not to feel nostalgic as my term of office at this school draws to a close. This marks the end of three very demanding, but three very rewarding years. I would therefore ask all students to develop an intense pride in their school; to give of their best so that they may benefit from what the school has to offer. After all, buildings alone do not make a school. You, the students, are the heart and soul of the school and it is you who must continue to enhance the reputation of the Shepparton South Technical School.
In conclusion I would like to express my sincere appreciation to the staff, the parents and the students for their friendship and help during the last three years. I shall never forget Shepparton South Technical School.

J. J. Hennessy

Page 4

* CO-ED *

The first few weeks of Co-Education at South Tech have been weeks of great adjustment for the girls, the boys, and the staff.

Much consideration has been shown to the girls in their new surroundings and many unforeseen problems have arisen.

A few of these problems found by the girls are:
- Small number of elective subjects for form four girls.
- Lack of suitable shelter for meals.
- Broadcasting of the Clay Frazier fight was of great interest to the boys but quite unsuitable for the girls.

Where would we be without something to complain about?

I think that most of us have adjusted quite well into our new environment and are very proud to have such a fabulous uniform.

These uniforms being the only ones of their kind in Victoria will be well looked after and I sure that no doubt they will be complemented.

I would like to thank our Principal, Mr. Tomlinson, vice Principle Mr. Morrison and the staff for all they have done for us to help us feel part of the school and I am sure that we shall deep up the standard that has been set for us.

Sportsman of the Month

Pictured is Barry Cugh who has been chosen as Shepparton South Tech's Sportsman of the Month.

He has been chosen because of his achievements in the House Swimming Carnival and the NEMSA Swimming Carnival.

In the House Sports he obtained the following standards. He won the Freestyle event and the Backstroke as well as the Breaststroke, this is an outstanding effort.

In addition to this, in the Interschool Sports he displayed again the efforts for which a sportsman may win such a title.

Well done Barry.

John Kiss

GIRLS NOT WANTED

I do not think there should be girls at this school because it is extra money the school would have to pay for cooking and sewing rooms, girls' toilets and other rooms. It would take the minds of the students off their work and on the girls. They would not be able to concentrate.

Greg Pell. 1G.

PRINT'S PROGRESS

"PRINT" began in June of this year. It was the brainchild of Mr. Thomlinson who saw great possibilities in a school newspaper. Mr. Frost became Editor and Production Manager, and it was his task to see that the project got off the ground and continued. He was helped by many other teachers who taught the boys how to carry out the various processes involved in producing the newspaper.

In the first issue teachers mostly did the work themselves, as they had to learn the processes of production. Since then a large number of students have taken a part in producing the paper. With new ideas and events continually happening around the school they are never short of articles to write about. Mr. Frost went on to say that a lot of time, work, and effort was involved in producing a newspaper, and that the students did most of the work which includes, interviews, photography and developing, writing up reports, poetry and opinions, correcting written material, typing, layout and paste-up, drawings, making the plates, printing, stapling and distributing the paper.

Most of this takes place in the office of 3Y which is the headquarters for paste-ups and typing, while development of films and plates takes place in the darkroom.

Mr. Frost feels that the paper has been most successful in fulfilling the aims that he stated in the first edition of the newspaper. A great number of students are actually participating in one way or another, and all have the opportunity to do so.

Print should improve and expand next year, as well as being produced more often, because students will become more expert and familiar with production.

S.S.T.S. AWARDS

At Shepparton South Technical School's Presentation Night held at the Civic Centre last Thursday, awards to the following students were announced:

Honour Certificates:
Seven Honours - Henry Jezewski and Graeme Pellet.
Six Honours - Tony Pizzichetta, Geoffrey Tyers, Robert Fairweld, Ross Newton, Doug Mudford, Bruce Newham, Bruce Kinchinton, Trevor Downie, Kevin Caccianiga, William Parsons and Aladar Feher.
Five Honours - Clive Price, David Townsend, Geoffrey Fleming, Don Cavellaro, David Gibb, Neil Hilton, Hayden Lockwood, Alan O'Keefe, William Ely and Tony Clarke.
Four Honours - Geoffrey Russell, Trevor Anselmi, Ian Bartlett, Robert Crocker, Robert Russell, Murray Snelling, Rocci Massone, Joe Piasionori, Phillip Gledhill, Phillip Beattie, Ross Henning and Colin O'Keefe.

Rotary Award: Aladar Feher.
Apex Award: Don Cavallaro.
Lions Award: Wayne Collier.
Trade Awards:
Carpentry and Joinery: Peter Connors.
Fitting and Machine: Neville Dungrove.
Plumbing: Ron Longmuir.
Motor Mechanics: Peter Cruickshanks.

For Co-operation: Bruce Winchinton.

Junior Government Scholarships: Trevor Anselmi, Trevor Arnold, Ian Bartlett, Graeme Bathman, Seladin Bequir, Thomas Brain, Michael Broadhead, Kevin Caccianiga, Neale Carr, Anthony Clarke, Christopher Coe, George Corish, Peter Corry, Robert Crocker, Rodney Crosford, Mark Cruickshanks, Paul Curtis, Trevor Downie, David Doyle, Trevor Dunlop, David Egglestone, William Ely, Tony Clarke, Geoffrey Fleming, Geoffrey Gilbert, David Harrison, Peter Ready, Graeme Lawer, Allan Mansell, Gregory McDoy, Ping Meola, Bruce Kinchinton, Bruce Newham, Raymond Noble, Jim Perona, Joseph Piacloori, Gregory Russell, Robert Serafini, Murray Snelling, Allan Trantor, Jeffrey Trevaskis, Ian Tuena, Raymond Wong.

SOUTH TECHNICAL SCHOOL

The successful swimmers in the various age groups at the Shepparton South Technical School swimming sports were presented with a sports towel as a trophy. Pictured in the front row are, Tracey Warburton under 14 years (left) Ken Newey U 12, Michelle Stewart U13 and Sharon Farley U 12. Back row (from left) Glen Robinson U 15, Grant Reid U 14, Wendy Moylan U 15, Peter Bau U 15, Ross Cowley U 13 and sportsmaster Robin Parkinson.

Shepparton South Secondary College 1990-1996

In 1990 Shepparton South Technical School became Shepparton South Secondary College. This name change symbolized fundamental changes that occurred in the school.

A series of building projects transformed the College. A covered walkway and bus shelter was constructed in front of E wing in 1988 and in the following year, renovations of the administrative area.

Weather covered walkways were constructed between the library, B wing and E wing.

In 1990 six tennis courts and two netball courts were constructed alongside the school oval.

However, the main building project of this time was the construction of a combined gymnasium and music complex and the renovation of the school canteen.

The College curriculum also underwent a substantial change with the introduction of the Curriculum Frameworks which restructured the College in nine subject areas: English, Maths, Social Education, Science, Commerce, Arts, Technology studies, Personal Development and L.O.T.E. (Language Other Than English). The Victorian Certificate of Education or V.C.E. also introduced an integrated two year course which replaced Year 11 and the S.T.C. program.

McGuire College
1997-present

In 1997 Shepparton South Secondary College changed names and became McGuire College.

Over the following years there have been many structural changes within and around the school. There was the construction of the Science and Technology building. The administration area in A wing upgraded in 2010, a new building at the front of the school (named E wing) in 2012, the music rooms relocated from the rear of the gymnasium to F wing (renamed from E wing to F wing) and the renovation of the weight room at the rear of the gym in 2016.

LIFE UNDER THE SEA

The date is the Nineteenth of December in the year, Twenty Thousand and Seventy Nine. My name is Salvadore and I live in Atropolis which is an experimental city of five thousand people, built to see if it is worth spending $1,000 billion on underwater cities.

I was hand picked to give a daily description of my life to prove to you that underwater life is possible.

When I get up I have a shower without getting wet. It's a new idea of an air-hose type of effect. After the shower I have breakfast which consists of sea horse cereal with seaweed on toast. I journey to school on a moving sidewalk and go to bed after I come home from school which is at 6 o'clock in the evening.

The reason I go to bed so early is because too much exertion of the human body in the artificial sunlight can cause death through exhaustion.

There aren't different customs today than the last century for it is still a free world. The city is safe from vandals trying to pierce the outside shell, for it takes 15 tons of dynamite to even crack it.

I am going on my first outside trip tomorrow in my 30 years here. The trip will be a bore as it is impossible to go out in scuba gear because of the outside pressure, due to the great depth we are at. So we're going around in a submarine.

This is all I have to say except that I am going crazy in these surroundings, where you go to bed early and can't go outside the glass walls without being exterminated.

Tom Erwin. 3F.

FASHION TO BEAT THE CHILL

Shepparton South Technical School girl students can proudly claim their new winter uniforms are right up with the latest fashion trends.

Two part suits, with a dark green pull-over, are not only eye catching but are ideal to cope with cold weather conditions experienced with the official start of winter yesterday.

The women teachers have also caught on to the idea and are now wearing part suits to school.

Our picture shows teacher Barb James, with Vivienne Adamato in the new uniform and Lyndal Dredge in her summer outfit.

RESULTS OF HOUSE COMPETITIONS WERE :-

K. RIDRDAN SWIMMING CUP won by SWAN HOUSE
HARTLEY'S ATHLETICS SHIELD won by TEAL HOUSE

Jennings for their generous assistance o

WOODSTOCK

The impact of modern music upon youth was shown in a fantastic way in this documentary movie depicting the stupendous "Woodstock" happening where more than 400,000 young people gathered together to enjoy three days of music, peace and love. The film was shot at "Woodstock" where the best of musicians that America could offer appeared. With The law and order President Richard Nixon, knocking the easy Riders with his premature convictions of scenes relating to drugs, nudity and prefanity he was forced by public opinion to reappraise the situation. He could not say this against "Woodstock" because the film only showed kids swimming without clothes and that was all, nothing more; No drugs. The organisers went ahead and showed the world that a huge mass of young people could put into practice what they had been preaching, that with the will to do so they could all live together in harmony, in extremely adverse conditions.

J. CRAWFORD. 5A.

Tech School new look
5/2/1971
These two young students are amongst a number who have added beauty and color to their new school South Shepparton Technical School, which became co-educational as from Wednesday when the new school year started. The girls have a color choice of gold, bottle green or cinnamon, and the attractive uniforms are a mini with buttons down the front and four pockets. The girls are Claire Baxter (seated), and Linda Hewlett, both

Three share in literary awards

A local girl has won a BHP prize this year's nation wide you literature competition.

Sandra Bailey (16) was one of 20 winners, each to receive $20, in the competition.

The BHP award was a section of the Australian Industry Awards which are awarded annually.

Also successful were Linda Blook (16) and Ruth Ryan (18), who gained honorable mentions in the State of Victoria Short Story Award, which was one of 13 national awards conducted annually by the Victorian Fellowship of Australian Writers.

Sandra and Linda are students at Shepparton High Technical School, and Ruth ...

Project officer for the North Central Region of the Fellowship of Australian Writers, Mrs Merle Jarvis, said today that both Sandra's poem and Linda's story would be printed in a booklet shortly to be published.

Mrs Jarvis said the Commonwealth Government had granted $200 to the North Central region, provided they raised a similar amount to produce a booklet of poetry, short stories, articles or sayings and music.

This booklet, "Gale Blows" is expected to be on sale soon.

Mrs Jarvis thanked all who had co-operated to raise the $200 to enable the booklet to be published.

Mr Jim Hamilton, secretary of the Victorian Fellowship of Australian Writers, and Mrs Merle Jarvis, project officer for the North Central Region congratulate Linda (right) and Sandra on their awards.

Out in the lovely wild bush I sit on a special rock I call Lookout of Beauty.I can see, up in the tall,slender gum - trees,masses of bright colours of the parrots,which chirp and flutter their wings in the green leaves.Down near the dam, I sit and paint the Chestnut Teal,which usually come there to drink.It makes it's nest among the tall,grassy reeds which help to camouflage this bird of wondrous colours. Recently,I have seen tourists, from the over-crowded cities, come to shoot the beauty surrounding me.The shots of the threatening rifles make the beautiful birds fly away,while the scared animals crawl under logs,trembling.-Ron.Martin

Thirty miles west of Deniliquin, on the edge of the Edwards River lies a place called Moraygo.On one side of the river stands a forest,which I used to visit and adore.What was so outstanding about it? Other people could not see,but in my eyes I saw tall,stout trees swaying sturdily in the delicate breeze. Just to hear the birds joining in a song made me whistle a tune.

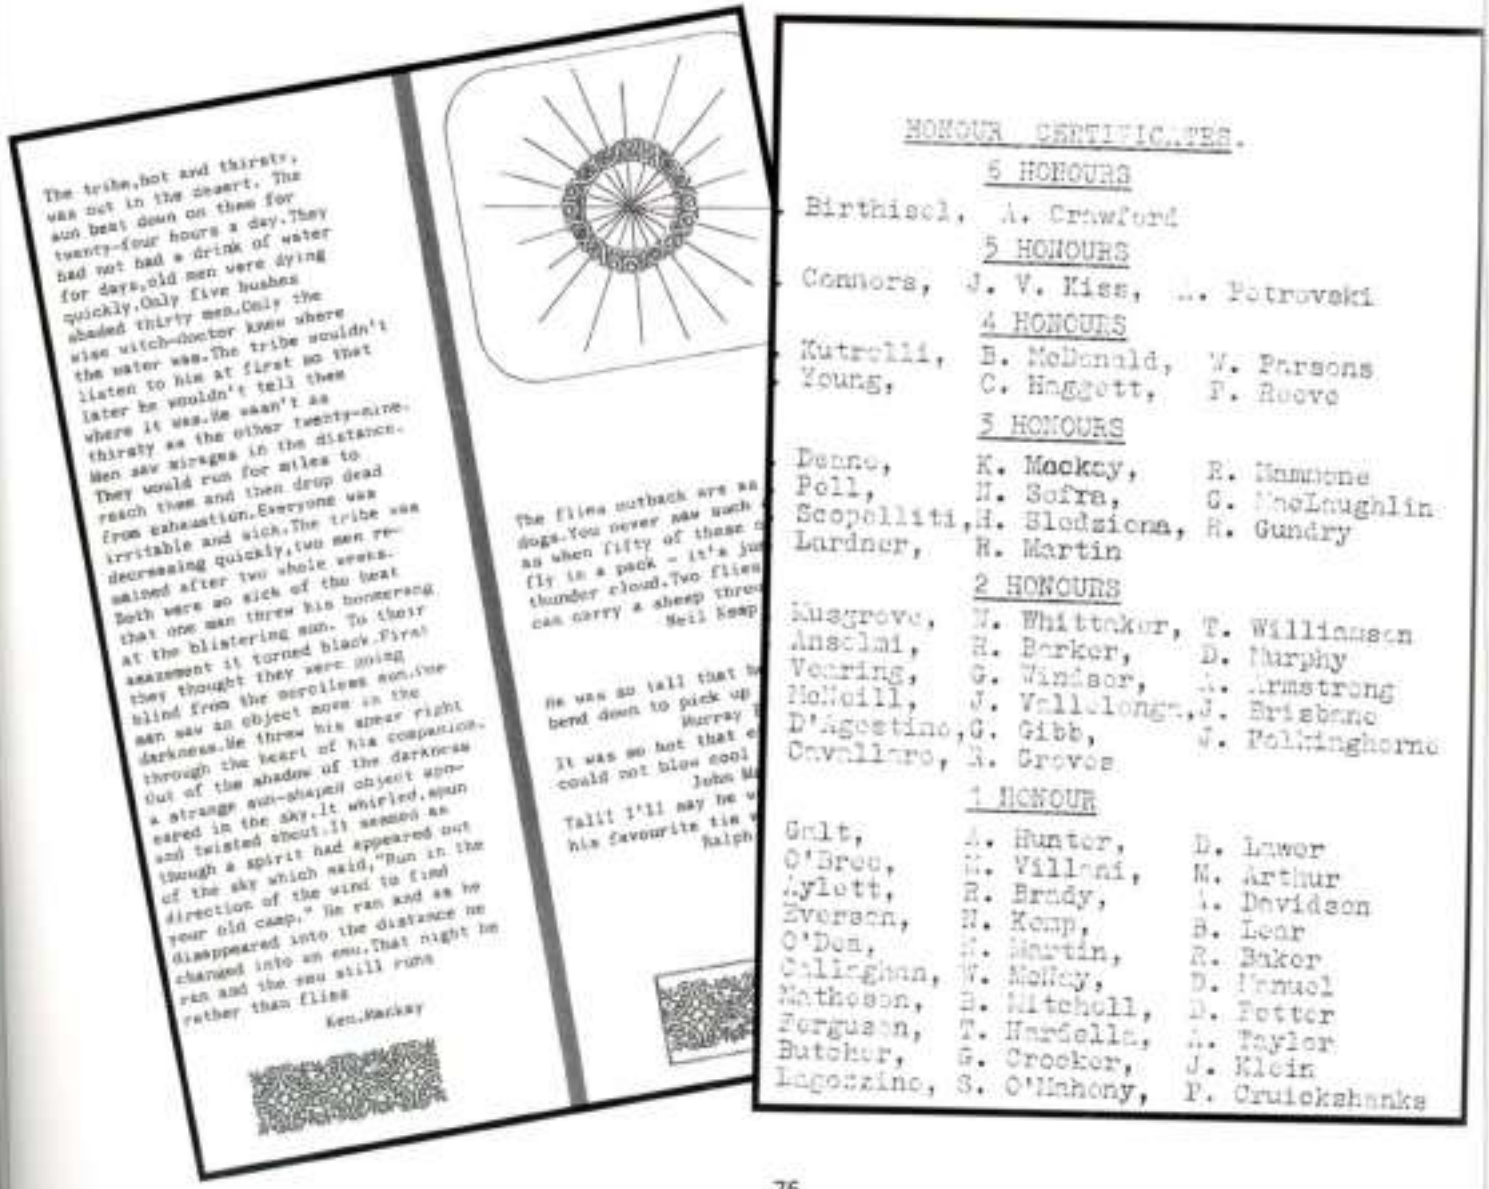
Every attempt has been made to list all students who have attended the College during the past 50 years.

If there are any mistakes in years of attendance, spelling of names, etc, please accept our apologies.



The tribe,hot and thirsty, was out in the desert. The sun beat down on them for twenty-four hours a day.They had not had a drink of water for days,old men were dying quickly.Only five bushes shaded thirty men.Only the wise witch-doctor knew where the water was.The tribe wouldn't listen to him at first so that later he wouldn't tell them where it was.He wasn't as thirsty as the other twenty-nine. Men saw mirages in the distance. They would run for miles to reach them and then drop dead from exhaustion.Everyone was irritable and sick.The tribe was decreasing quickly,two men remained after two whole weeks. Both were so sick of the heat that one man threw his boomerang at the blistering sun. To their amazement it turned black.First they thought they were going blind from the merciless sun.One man saw an object move in the darkness.He threw his spear right through the heart of his companion. Out of the shadow of the darkness a strange sun-shaped object appeared in the sky.It whirled,spun and twisted about.It seemed as though a spirit had appeared out of the sky which said,"Run in the direction of the wind to find your old camp." He ran and as he disappeared into the distance he changed into an emu.That night he ran and the emu still runs rather than flies

Ken.Mackay

The flies outback are as dogs.You never saw such as when fifty of these fly in a pack - it's ju thunder cloud.Two flies can carry a sheep thro

Neil Keep

He was so tall that he bend down to pick up

Murray

It was so hot that e could not blow cool

John M

Tall! I'll say he w his favourite tie w
